Hi

I'd like please to be considered as NCUC rep on SCI

I'm and ICANN53 fellow and I've been engaged in ICANN policymaking process through many arenas, also becoming knowledgeable of GNSO structure for quite a while now signing for working groups and participating in meetings in cross community instances too such as CCWG IG, GNSO RDS PDP WG, GNSO New gTLD WG and others.

I'm also a participant of communities such as Bestbits and IGC and I maintain groups on internet governance research and policy debate in Northern Brazil.

I've learned through the work of Amr El Sadr and David Cake from previous ICANN meetings and IGFs and I hope to learn more participating and acting on the SCI.

Thank you very much for the consideration

Cc:

Dear NCUC members,

The executive committee has to appoint two NCUC representatives to the GNSO Standing Committee on improvement implementation (GNSO SCI). One candidate as a primary member and one as an alternate. This is a replacement of Amr El Sadr as the primary member and David Cake as the alternate who had previously served on the committee. We thank these members for their hard work.

To serve on this Committee, candidates need some knowledge of GNSO structure and experience with ICANN policymaking process. To be considered, please send us a brief statement of interest by 31 January 2016.

The information about the GNSO SCI can be found here. <https://community.icann.org/display/gnsosci/Home>

Best

Farzaneh

NCUC-EC rep for Europe
