Dear Farzaneh,
I have been an NCUC member who has not been fully involved in ICANN. This year, after a number of activities including writing a paper on the .africa gTLD fiasco and joining some policy working groups, I am getting to understand ICANN a bit more.

I am currently in three working groups- RPM, RDS and subsequent gTLD procedures. I have been reading up on the policy issues and intend to be more active in the RPM group. I think it is important that Africans/those working in Africa give more input in light of .africa which we all hope will be delegated next year.

I believe that with mentorship, I could participate more meaningfully in RPM. I am also applying for the fellowship in the hope that I get to meet and interact personally with some of the NCUC members of the working groups.

I am applying for support of USD 1,343 to cater for airfare and accommodation and transport as follows:
>   Airfare from Valencia to Copenhagen (170) and Copenhagen to Nairobi (571) - 741
>   Accommodation for 6 nights - 552
>   Transport - 50
>   TOTAL 1,343

Happy New Year,
Grace
