Dear Farzaneh and EC

I will be in Europe at that time and could attend all of RightsCon on NCUC's behalf if there was some help for hotel expense. Perhaps 3 nights; \$500 max should do it.

I am very interested and involved in the issue of content regulation via private ordering. I spoke on this issue for the IGF academy in Mexico, teach college students on this subject, and have been involved in the analysis and criticism of ICANN registry contracts that edge into content regulation, such as the so-called Public Interest Commitments.

At Rightscon I will be actively participating in another debate/workshop on cybersecurity, and would reach out to platform operators, European human rights lawyers and free speech advocates in an attempt to get them to understand the implications of ICANN and domain name contracts for free expression on the Internet.

Dr. Milton L. Mueller

Professor, School of Public Policy

Georgia Institute of Technology
