Dear NCUC Chair and Executive Committee Representatives,

I am writing to you to be considered as NCUC Delegate for ICANN Nominating Committee. I would be honoured to be part of this important committee within ICANN in order to add not only a regional and gender diversity but also to bring diversity in ideas.

Having given a keen look at the criteria of selection to the NomCom, I am confident to be able to fulfill the duties assigned to the committee in a professional and consensus-based atmosphere.

I hope to serve on this Committee because I know I have the potential to act in complete objectivity, and fairness in the review and selection process of applications and to protect the interests of the ICANN structures and multi-stakeholder model in the best way possible.

I am confident that my academic, civil society and ICANN engagement backgrounds would make me a strong asset in the NomCom team. In fact, I am a teacher, hence easy on negotiation and reaching consensus in a stress-free atmosphere. I am also currently the NCUC EC Representative of Africa, a position that helped me a lot in understanding the ins and outs of the constituency as well as the ICANN Ecosystem.

I have joined NCUC since ICANN 55 which was my first experience as a Fellow and had the chance to be back as a Coach for ICANN 57, ICANN 58 and ICANN 59. I am also a member in the Middle East and Adjoining Countries Strategy Working Group (MEAC WG). An ICANN, ISOC and Arab IGF Fellow, I also reported sessions from WSIS2016 with the Geneva Internet Platform and Diplo Foundation, I have the chance to enjoy a wide network of friends and connections in the IG arena.

I really appreciated the webinar organised by NCUC where we had Bill, Brendon and Hans discuss the NomCom responsibilities and where I tried to raise concerns on the lack of Gender and regional balance and learned on the time commitment and work load involved, which I can commit to.

Besides, I enjoy some flexibility to attend meetings in person as my employer encourages personal and professional development. Since my engagement with ICANN, I have been able to attend ICANN 55, the Arab IGF, ICANN 57, the Global IGF, the NCPH Intersessional, ICANN 58 and ICANN 59.

As NCUC EC Representative of Africa, I took part in the Leadership training before ICANN58 where I voiced NCUC interests to the ICANN community as well as to the ICANN CEO. I also did my best to keep members up-dated on our EC-related activities through a report on the NCPH Intersessional and my participation in the Middle East DNS Forum. Besides, I presented NCUC to ICANN Fellows and NextGen in ICANN58 and ICANN59. I also made sure on our NCUC mailing list that members are attending our outreach remotely and kept them updated through live tweeting through my Tweeter account as well especially during our outreach in ICANN58.

Hence, I would be honoured to be considered as NCUC Representative in the 2018 Nominating Committee and I promise to live up to your expectations.

Please feel free to contact me by email if you need more information.

Kind Regards

hfaiedh ines <hfaiedh.ines2@gmail.com>
