

# SA CONTENT DEVELOPMENT & TRANSLATION PROJECT

The SA CDTF is a project that is a collaboration between ISOC Gauteng Chapter, ISOC Global, ZACR, ICANNWiki and other partners. The project aims to create a new generation of Internet Governance leaders and content developers and contributors in the Country.

The SA CDTF aims to become a resource for the ICANN community and people interested in internet governance and content development. Help us reach our goal to create a complete and accurate picture of ICANN and the internet governance space in Africa! Your support will fund our travel expenses, lodging and giveaways.

## WHO WILL PARTICIPATE IN THE PROJECT:

8 Schools (teachers learners)  
2 Universities (professors and students)  
Translator (community)
